FASTER THAN VISION

This update adds enhanced features available on the new HS Series cameras to the IL and TS systems via FasMotion:

- Automatic Check for Updates
- Update downloads directly from FasMotion
- Transcode from JPEG or TIFF stacks to MP4 files
- Image Trigger Reference Frame Refresh Interval
- Time Trigger Countdown Timer and Count
- Colorize Saturated Pixel Display
- Focus Assist Display
- Multi-Camera Parameter Lock
- Control Panel Tab Locks
- Autosave Enable Button
- Aiming Cursor

Here is a demo video of these features: https://vimeo.com/546522639/cb631d38f2

As always, if you have any questions or would like help with your high-speeed imaging application, don't hesitate to call us (858) 592-2342, or email us at support@fastecimaging.com

Best Regards,

Tim Brandt
